PROFESSIONAL EXPERIENCE

AI Engineer Intern, Liasas Foras

Oct 2023 - Mar 2024

- Developed a text processing application using Python and Regex, improving pattern extraction speed by 30%.
- Designed and deployed scalable microservices with Docker and MongoDB, achieving 99.9% uptime.
- Applied NLP using SpaCy and large language models (LLMs), improving query resolution speed by 50%.
- Implemented geocoding and reverse geocoding features with a 35% reduction in lookup time.
- Leveraged CUDA for high-performance computing, tripling the processing speed of NLP and geospatial tasks.

Data Science Intern, Helix Smart Labs

Mar 2023 - May 2023

- Fine-tuned DenseNet and ResNet models via transfer learning to improve image classification accuracy by 20%.
- Integrated U-Net with DenseNet/ResNet for object segmentation, enhancing precision by 30%.

PROJECTS

MatchBOT – Football Discord Bot | JavaScript, Python, Node.js, Discord.js, AWS

- Developed a Discord bot that delivers real-time football match updates via API integrations.
- Automated match alerts and user queries using Node.js; deployed on AWS for high reliability.

Unified Compiler for Language Agnostic Development | JavaScript, Node.js, JavaScript, HTML, CSS

- Built a cross-language cloud compiler capable of running Python, Java, and C programs in a unified interface.
- Integrated Gemini-powered AI chatbot to assist with code explanation, debugging, and suggestions.

valorX - A Cryptocurrency using Blockchain Technology | JavaScript, Node.js

- Designed and implemented a custom blockchain from scratch using JavaScript and Node.js, including transaction validation, block mining, and peer-to-peer networking, enabling secure and transparent digital ledger functionality.
- Demonstrated deep understanding of decentralized systems, cryptographic hashing, and real-time distributed architecture.

EDUCATION

B.E. in Computer Science & Engineering

Dec 2021 - Jun 2025(exp)

APS College of Engineering, Bangalore - 560082

Class 12 & 10 | CBSE

Apr 2007 - Jun 2021

DAV Model School, Durgapur - 713205

TECHNICAL SKILLS

- Programming Languages:** Python, Java, HTML, CSS, JavaScript, C, C++, SQL
- Frameworks & Libraries:** ReactJS, Node.js, Express.js, PyTorch, TensorFlow, SpaCy, OpenCV
- Tools & Platforms:** Git, Docker, AWS, Linux, MongoDB, PostgreSQL, MySQL
- Concepts:** Object-Oriented Programming, REST APIs, Agile, CI/CD, Model Deployment

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Bengali
